A typical pouring event runs about 1.5 hours. Prices start at \$35/person for a single 10oz candle pour, which includes all materials and instruction to make your personalized candle(s).

We provide several fragrance oils to choose from so you can mix and match oils to create your own custom scent. We'll also provide supplies to create custom labels to match your candles!

Pick-up time is at least 2 hours after candles have been poured. We'll ensure they set up correctly, trim wicks, and package the candles for convenient pickup after your event.
